Dear Mr Doroftei,

I would like to thank you for inviting me to visit you and the rest of the Romanian Boxing Federation at the end of this month.

Unfortunately, due to the short notice and a busy schedule, which practically leaves no room for changes, I regret to inform you of my difficulty to accept your kind invitation. In fact, the Samaranch Memorial, which I am currently building in China, will soon be inaugurated and I therefore need to be on site in order to supervise the final stage of its construction, which is also the most critical.

As for the possibility to visit you in Romania on another occasion, I would need to know the exact dates a bit earlier in order to comfortably put them in my calendar.

Nevertheless, I am very happy to learn from your letter of the many projects you are working on. Your commitment to restore the ancient splendor of the Romanian Boxing Federation certainly does you credit. You have the right motivation and necessary energy to inject new life into your federation and further develop the sport in your country.

Looking forward to meeting with you on another occasion, I wish you the best of success in all your endeavors.

Kind regards,

Ching-Kuo Wu
